Who We Are

About Us

Davis Pharmacy Technician Institute is a 16 week training program dedicated to helping students to obtain their PTCB license to become a Certified Pharmacy Technician. Students will be trained in retail, hospital, compounding, and IV aseptic techniques.

*"Changing lives one student
at a time"*

Company Mission

“To provide top of the line pharmacy training to our students focuses on the individual student and the diversity of skills needed to qualify to work in any pharmacy setting”

Upon completion of the program, the student will take the PTCB National Exam for the title of Certified Pharmacy Technician, and should demonstrate the skills necessary to perform at entry level to assist licensed pharmacists.

***Contact our business office for tuition consultation.**

“Pharmacy Tech school is not as easy as most may think. But when you have a teacher like Ms. Davis, it will be worth the accomplishment. Ms. Davis made sure that you understood the course you were learning before she moved on to the next lesson. She provided tutoring for students who didn’t catch on to the math that we had to learn. She is a really great teacher who takes her job seriously and make sure that all of her students are understanding the seriousness of their position. I would encourage anyone to take her course because by the time you finish, you will be ready to start your career.” Shatoya Britt-former student
